Confluence of Design, Culture and Technology

**Engineering and Construction
Management**

**Project Management
Consultancy**

**Development Management
Services**

EXECUTIVE SUMMARY

- **Delivering Excellence Since 1993**
- Established in **1993**, **Cillages** is a leading Project Management Consultancy specializing in industrial, commercial, residential, institutional, infrastructure, township, and mixed-use developments across India. With over **30 years of experience**, we deliver end-to-end project management solutions that align technical excellence with our clients' strategic business objectives. Having worked shoulder to shoulder with **Developers, Corporates, Institutions, Industries and Societies alike**, we have developed culture of **advanced Project Management Practices aligning with Stakeholder Business Objectives**.
- By integrating globally recognized **Project Management Techniques, Agile practices**, and proprietary digital capabilities through the proprietary C2M Platform, Cillages enables efficient project execution, enhanced collaboration, transparent governance, and data-driven decision-making throughout **the project lifecycle and beyond**.
- Today, Cillages is transforming the built environment by incorporating **Artificial Intelligence (AI) and ML (Machine Learning) converting limited BMS to manageable Smart Automation, Digital Infrastructure, 5D BIM, Digital Twins, and Connected Technologies**, helping clients develop intelligent, sustainable, and future-ready assets. The integration begins with the thought of asset creation and ends up with smartly managed communities and intelligently functioning assets with increased maintenance life with the help of Cillages One – The proprietary Unified Command Centre to making **Complexes - INTELLIGENT**.

Our Technology Partner - Lumi Electronics, Germany

- **Lumi Electronics: Pioneering Innovation and Global Collaboration**

- Founded in Germany, Lumi Electronics is at the forefront of technological advancement, offering cutting-edge electronic solutions tailored to meet global demands. Our commitment to excellence is reflected in our strategic partnerships and collaborations across the world.
- **Z-Wave and KNX: European Excellence in Smart Technology**
- Originating from Europe, Z-Wave and KNX technologies are synonymous with reliability and innovation in the smart technology landscape. Renowned globally for their robust and secure communication protocols, these technologies form the backbone of modern smart homes and buildings.

Global Partnerships for Enhanced Capabilities:

- To ensure top-tier manufacturing quality, Lumi Electronics has established strong partnerships with leading EMS providers in China and India. These collaborations enable us to maintain high standards of production efficiency and quality assurance.
- **Advanced Firmware Development:**
- In our pursuit of technological excellence, Lumi Electronics has teamed up with Jintabao, a renowned leader in firmware development. This partnership allows us to integrate state-of-the-art software solutions into our products, ensuring seamless performance and innovation.
- **Expansive Distribution Network:**
- Understanding the importance of efficient distribution, Lumi Electronics has joined forces with Drasis to create a robust and far-reaching distribution network. This collaboration ensures that our products are available to customers worldwide, supported by reliable and timely delivery.

Cillages with S.P.Infra Group of Companies

Cillages and SP Associates have joined hands for Project Management Consultancy and Real Estate

1993 – the year of incorporation after initial eight years of various experiences, Mr. Pankaj Shah started the journey under the name S.P. Associates.

Today, after 33 years, S.P. Associates has grown to become a giant group under the flagship of S. P. Infra Pvt. Ltd. with technical expertise, experience to handle large projects and, complications of all kinds.

More than 1200 projects of small and large sizes and complications of Structural rehabilitation, redevelopment of properties and mixed use townships have been managed by the group with fullest of client satisfaction. The largest being master planning and infrastructure of a 320 Acres project in Pune & 2.2 million square feet mixed use township in Mumbai. The Group has vast experience in redevelopment space of Mumbai with over 42 projects to its project management credit including redevelopment under 33 (7), 33 (10), 33 (11), 33 (20) as well as cluster developments under 33 (9) of DCPR 2034. The Group has successfully expanded its reach in MMR and Pune regions of Maharashtra.

Technology and professional approach has been highlight of the group to support effective risk management. The knowledge bank is enriched with more than 125 years collective experience of varied nature led by Project Management Techniques. The Group works with its in house and long term professional associates as Key Persons to strengthen the knowledge base and execution skills.

Symbiotic Vision – Unique Approach

Empowering Communities to navigate complex technological landscapes with surgical precision and data-driven foresight.

Why We Start With You

Our consultancy is built on the belief that empathy is the most powerful tool in the high-tech arsenal.

Technical Excellence

Our mastery of deep-tech project management ensures that your vision is delivered with surgical precision, automated oversight, and zero-loss efficiency. We move beyond traditional consultancy by acting as a high-tech "Command Center" for your projects, leveraging real-time data and predictive risk modeling.

Able Leadership Board

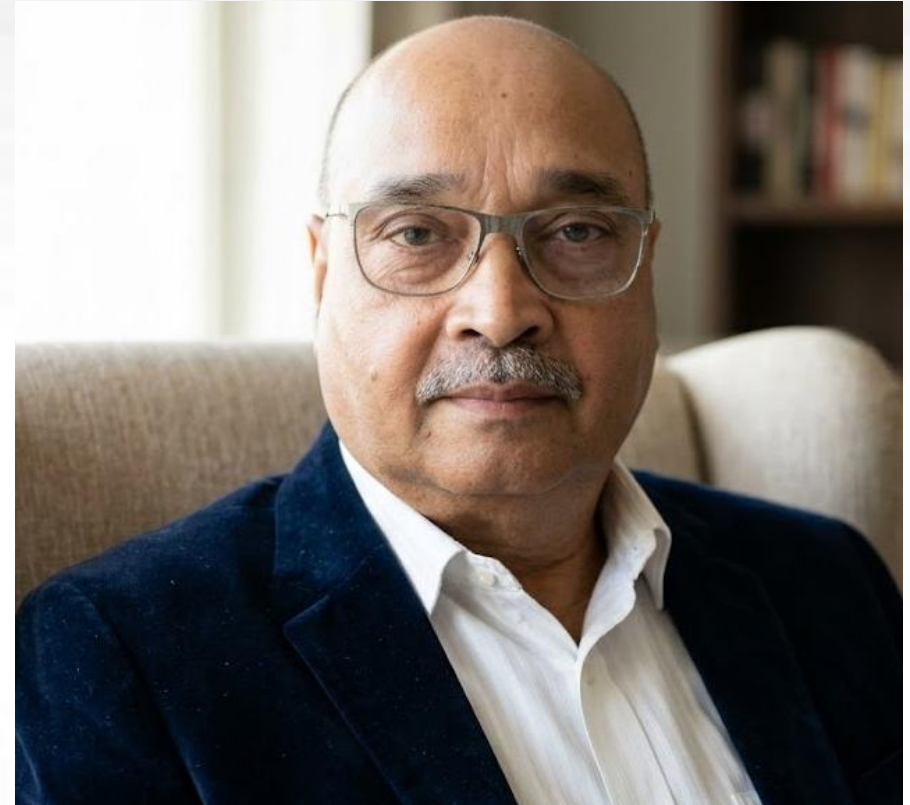

Mr Shailendra Maliwar

Graduate in Civil Engineering from VJTI, PG in Systems Management from NMIMS, PG in International Marketing, Masters in Marketing Management, SAP (PS), PMP (USA), Life Member ACI, Mr Maliwar has continuously thrived to excel in civil engineering, Project Management and Real Estate Development.

With diverse experience in project management as consultant, designer, contractor and, COO in leading organizations like Lodha Developers, Mr Maliwar possesses combination of skills in Product design, process design, Marketing and operations.

A serial Entrepreneur, CMD of Cillages Infra Pvt. Ltd., Mr Maliwar is associated with S.P. Infra as Principal Consultant and, adds value in dealing with large layouts and corporate clientele satisfaction.

A system Architect himself, Mr Maliwar believes and has set many organizations for projectized configurations, working with project systems. He has acted as Technical lead auditor – ISO, to a few organizations and carried out system architecture of AI powered Unified Command Centre for Intelligent Township Management.

Mr. J.D. Singh is professionally a well known administrator and law expert. He has been managing estates for over 35 years now. He brings along with him decades of business expertise and professional culture. Born and educated post graduate from Mumbai, he is well versed with the cultural side of business practices. He is a proven negotiator and, rich with problem solving skills. Industrial Units, Corporate buildings and Redevelopment of Housing Societies.

Mr. Shailesh Mehta, a Civil Engineering graduate from VJTI, Mumbai, brings nearly four decades of experience in infrastructure development, project execution, and engineering management. Throughout his career, he has successfully led numerous large-scale corporate and infrastructure projects, consistently delivering technical excellence and operational efficiency.

Dr. Jyoti Maliwar is a Science graduate, postgraduate in English, and holds a Doctorate in Business Communication. She specializes in communication management, stakeholder engagement, and project documentation. Her expertise ensures structured information management, comprehensive documentation, and robust data support throughout the project lifecycle and contract closure processes.

Mr. Jayesh J.

Jayesh J is a Product Owner, Scrum Master, and UX/UI Specialist with over 19 years of experience helping organizations build user-centric digital products and improve business processes. He combines expertise in product strategy, Agile delivery, business analysis, and experience design to deliver solutions that align customer needs with business objectives. His strengths lie in stakeholder collaboration, product vision definition, requirements management, and creating intuitive user experiences that drive measurable outcomes.

Certified Professional Scrum Product Owner (PSPO I) and Certified Scrum Master with a strong track record of translating complex business requirements into user-centric products and scalable digital solutions. Skilled at stakeholder management, product roadmap planning, requirements engineering, usability improvement, and driving cross-functional teams toward successful outcomes.
